# Sanpete County, Utah

# **ASAP Implementation Report**

# SANPETE COUNTY ECONOMIC DEVELOPMENT—Implementing ASAP

#### 1. Introduction

The economies in many communities and counties in the West are struggling with limited employment opportunities and stagnant wages especially for working class, service and blue-collar jobs. In rural communities, problems are compounded because of declining employment in agriculture, natural resources and manufacturing, historically the primary employers of rural Americans. In more rapidly growing metro and shoulder counties, problems of housing, transportation and accommodating new growth and development complicate the integration of adjacent rural counties into a regional economy. Such is the case with Sanpete County comprised of largely rural communities but with growth and expansion on the horizon from metro regions just to the north of Sanpete County. In an effort to assist communities with their regional economic development efforts, the Western Rural Development Center and its partners throughout the western region have developed ASAP (Area Sector Analysis Process), a strategic planning model designed especially for rural or growing metro counties in the Western United States.

#### 2. ASAP Model

The ASAP model and process has been applied or is in the process of being applied, in a dozen or more communities in the West including the Utah counties of Wayne, Sevier, Juab, Sanpete, Piute, Millard in the 6 County Association of Governments; Grand and San Juan Counties in the Southeastern AOG; and Beaver and Garfield Counties in the 5 County AOG region.

The ASAP process consists of six modules that are delivered once each month for six months. Module topics are: 1. Introduction and Overview of the ASAP Process; 2. Community Goals and Assets: Acquiring County Data and Surveys; 3. Overview of County Socioeconomic Factors; 4. Presentation and Discussion of ASAP Output (Target Industry Data Report presented); 5. Quantitative Analysis of ASAP Results Sanpete County NAICS Report presented); and 6. Applying ASAP Results to Community Economic Development Efforts (Sanpete County Final Report and Implementing ASAP presented).

During the six-module process, community goals are determined through a survey of county residents. Community infrastructure, economic and quality of life assets are also determined. Finally, survey data from over 2,500 businesses from all geographic regions of the country are reviewed to determine what industries would need to succeed in a target community or county and what benefits the industry would bring to the local community.

The ASAP process then matches community survey and asset input with industry interview data. The ASAP model helps communities determine industries that are both desirable for local residents and compatible with industry needs. Extensive data and information are provided to the community on industries that are both desirable and compatible and are selected by the community for further research and analysis.

Utilizing ASAP output, the ASAP team helps the community team to develop and implement an economic development strategic plan.

Data specific to Sanpete County are provided below: included are survey and asset results (Tables 1-3), and target industrial sectors (Table 4).

# 3. Survey Results (Desirability)

159 Sanpete County residents responded to an on-line survey of economic development preferences and goals summarized in Tables 1 and 2. Questions are organized around the business and development implications of factors relating to sustaining and improving the economic, environmental and social quality of county residents. The top three responses, "New businesses hire locally," New businesses return profits to the community," and, "New businesses increase the average local wage" reflect the concern of residents for an improvement in the quality of their economic life. Nearly a third of the 159 responses, included one of these top three economic outcomes. These community development choices and preferences comprise a **desirability index** which is one critical component of the ASAP matching process.

**TABLE 1: Community Development Goal Rankings** 

Goal	Weight	Rank
EconomicQuality	47.8%	1
Environmental Quality	32.1%	2
Social Quality	20.0%	3

**TABLE 2: Community Development Indicator Rankings** 

Indicator	Weight	Rank
G1.I1 - Every new job generates additional jobs in the community	8.7%	6
G1.I2 - New businesses return profits to the community	9.8%	2
G1.I3 - New businesses hire locally	13.2%	1
G1.I4 - New businesses buy locally	6.7%	8
G1.I5 - New businesses increase the average local wage	9.4%	3
G2.I1 - New businesses do not pollute the water	9.1%	4
G2.I2 - New businesses do not release toxic chemicals in the air	8.8%	5
G2.I3 - New businesses are in compliance with hazardous waste management	8.0%	7
G2.I4 - New businesses do not emit greenhouse gas	3.7%	12
G2.I5 - New businesses do not develop undeveloped land	2.4%	15
G3.I1 - New businesses increase the local tax base	3.7%	11
G3.I2 - New jobs are full-time	5.1%	10
G3.I3 - New jobs offer benefits (health and/or retirement)		9
G3.I4 - New jobs provide training programs		14
G3.I5 - New businesses support community activities	2.4%	13
Number of observations	159	

# 4. Asset Evaluation Results (Compatibility)

Table 3 identifies county assets that are important and in some cases critical for the operation of businesses and industry in Sanpete County. Factors such as accessibility, available retail and industrial space, cell phone service, water and power supply are all compared to national standards and evaluated as assets. These assets are then compared to requirements of 2500 businesses and industries interviewed over the past ten years and the results compiled in a data base for ASAP use. These data become a critical part of a **compatibility index** used to match and target industries with community goals and preferences.

<sup>\* =</sup> Not included in ASAP Model

CAI = Community Asset Inventory - values provided by steering committee; ratio values validated and modified where necessary

CGS = Community Goal Survey - average of all community survey rankings (1=lowest, 10=highest)

## 5. Target Industry Sectors

County desirability and compatibility scores are compared with business interview data in the ASAP data base and matches are profiled on a scattergram as four digit NAICS code industries. Of particular interest are sectors with desirability and compatibility matches greater than .5 plotted on the scattergram. There are more than 200 industries in the Sanpete County study with a compatibility match > .60; 30 sectors with a desirability match > .55; and 25 industries with compatibility and desirability scores > .55. Table 4 represents the five industries from the high (>.55) DI and CI list, plus additional compatible industries added because of their potential in Sanpete County.

The top three industries selected for further research and in-depth analysis are: NAICS 3329 (including subsector 332992) Small Arms Ammunition Manufacturing; 3364 Aerospace Product and Parts Manufacturing; and 5415 Systems Design and Related Services (Appendix 1 provides detailed information for these target sectors).

**TABLE 4: High Ranking Selected NAICS Sectors** 

Rank	NAICS4	Description		DI	CI
16	3252	Resin, Synthetic Rubber, and Artificial Synthetic Fibers and Filaments Manufacturing	Х	0.5705	0.7688
15	3273	Cement and Concrete Product Manufacturing		0.5532	0.7740
Add'l	3329	Other Fabricated Metal Product Manufacturing		0.4670	0.8162
18	3331	Agriculture, Construction, and Mining Machinery Manufacturing		0.5521	0.7316
14	3341	Computer and Peripheral Equipment Manufacturing		0.5528	0.7747
13	3353	Electrical Equipment Manufacturing		0.5771	0.7806
Add'l	3359	Other Electrical Equipment and Component Manufacturing		0.4996	0.8622
Add'l	3364	Aerospace Product and Parts Manufacturing	Χ	0.5429	0.7668
Add'l	3391	Medical Equipment and Supplies Manufacturing	Χ	0.5279	0.7864
Add'l	5182	Data Processing, Hosting, and Related Services	X	0.5070	0.9362
Add'l	5415	Computer Systems Design and Related Services	Χ	0.5258	0.6097

## 6. Sanpete County Implementation Strategy – Next Steps

#### Organize economic development team

- Option 1: Task Force specific to ASAP analysis and results is organized to review and implement ASAP
- Option 2: Existing ongoing Economic Development Board is tasked with implementation of ASAP

#### Identify short term strategies

- Research existing ASAP target industries in Sanpete County. Possible BEAR activity
- Research ASAP target industries not currently in county. Possible EDC Utah and GOED assistance for contacts

## Organize around economic development strategies

- Encourage local entrepreneurship in high desirable (Desirability Index) and compatible (Compatibility Index) industries
- Assist existing businesses with high DI and CI
- Recruit compatible, desirable industries
- Develop needed infrastructure to increase compatibility with desirable industries

#### Identify long term strategies

- Infrastructure development
- Industry recruitment
